

SILENTCOOL

SERIES

YESICO is introducing the brand new SILENTCOOL Series - designed for the highest performance at the lowest noise level.

Loaded with features to meet the future – like the patented LED Power Display showing the systems realtime power consumption, the modular Cable Management System or the triple +12V rails to provide plenty of highly efficient energy – and much more.

The 120mm fan delivers whisper-quiet cooling and a perfect balance of high performance and user friendly computing environment.

- ATX12V v2.2 Compliance
- Active Power Factor Correction
- Full Range operation accepts line voltages from 100V to 240V AC
- Dual power connectors for PCI-Express graphic cards
- Control Function for case fan

Overview Output Connectors

Main Power	1X (20+4) Pin
CPU Connector	1X (4+4)
4-Pin for Peripheral	8X
4-Pin for Floppy	2X
S-ATA	4X
4-Pin for Case Fan	2X
6-Pin for PCI-E VGA	2X

+3.3V	+5V	+12V ₁	+12V ₂	+12V ₃	-12V	+5V _{SB}
28A	30A	14A	23A	15A	0.5A	2.5A
180W		560 W				

SC560-AS12CF [560W]

Patented LED display showing your systems real-time power consumption

The modular Cable Management System allows you to use only the cables you need thereby eliminating clutter and improving airflow inside your PC-case

Shock-absorbed mounted low-noise fan with integrated blue LED for whisper-quiet operation

„Easy Swap“ Molex connectors with gold-plated terminals. Unplug the connectors easily & quickly.
